## **A Bill to Phase-Out the Use of Nuclear Power in the United States**

1     *Be it enacted by this PBCFL Student Congress here assembled that:*

2     **Article I:**     Nuclear Power Plants in the United States shall be shut down over a five  
3                         (5) year period.

4     **Article II:**    Nuclear Power is defined as a form of energy produced by an atomic  
5                         reaction, capable of producing an alternative source of electrical power to  
6                         that supplied by coal, gas, or oil.

7     **Article III:**   The U.S. Department of Energy shall oversee the implementation and  
8                         enforcement of this bill. The Phase out period of the use of Nuclear  
9                         Power shall commence immediately. No additional Nuclear Power Plants  
10                        shall be constructed. All Nuclear Power Plants shall be shut down  
11                        completely no later than five (5) years after the enactment of this bill.

12    **Article IV:**   Each Nuclear Power Plant shall be identified and a Plan for the shutdown  
13                        designed by the facility and the U.S. Department of Energy. Such Plan  
14                        shall include the date of shutdown, a Plan for the safe disposal of the  
15                        waste products and a feasibility study of replacement power for the area in  
16                        which the facility provides energy for. The U.S. Federal Government shall  
17                        offer incentive tax credits to assist facilities in this process and to  
18                        encourage quick and efficient shutdown of the Nuclear Power Plants.

19    **Article V:**    All other laws that are in conflict with this new policy shall hereby be  
20                        declared null and void.
