

### **Discussion Task Round 3**

You are a group of political advisors working to get your candidate for the US Senate elected in Minnesota. This candidate, themselves a member of the middle class, is seeking your input on how to address the issues of the wage gap and wage inequalities in the state.

Your candidate wants to appeal to independent voters about this issue.

Your task is twofold. First, make sure the candidate has updated information about these issues in the state. Next, suggest three related policy ideas that the candidate can address during the campaign.
