Please carefully review the following statement on implicit bias from the National Speech and Debate Association.

"We are all influenced by implicit bias, or the stereotypes that unconsciously affect our decisions. When judging, our implicit biases negatively impact traditionally marginalized and disenfranchised students. Before writing comments or making a decision, please take a moment to reflect on any biases that may impact your decision making."

Please remember that the video quality of a student's performance or speech may be impacted by lighting, internet, access to equipment, and other family members' presence in the home. To ensure a more equitable experience for our participants, please be sure your decision-making process and comments are related only to the content and quality of the presentation or speech itself."
